Insurance Open Enrollment

As I am sure you are aware, Open Enrollment started **September 28** and will continue until **October 30**. First, thank you for opening your doors and allowing our Open Enrollment representatives to meet with your staff regarding their supplemental insurance benefits. Once again JPPSS is pleased to continue offering free dental, vision, and life insurance to all eligible employees. This year the dental insurance will be provided through Guardian, the vision insurance will be provided through Davis Vision, and The Hartford will continue to provide the \$10,000 Basic Life Insurance coverage. Employees currently covered by Ameritas Dental and Humana Vision will automatically transfer to Guardian and Davis Vision and maintain the same level of coverage. Eligible employees not yet enrolled in the free benefits must elect coverage during Open Enrollment. Employees wishing to making changes to their supplemental (dental, vision, life, accident, cancer, flexible spending account, etc.) insurance coverage must meet with an Open Enrollment representative. To see when Open Enrollment agents will visit your school, please visit <http://jpschools.org/wp-content/uploads/2013/03/2016-Open-Enrollment-Schedule.pdf>.

Annual Enrollment is also occurring from **October 1-November 15**. During Annual Enrollment employees may elect or make changes to their Office of Group Benefits health insurance coverage. Open Enrollment agents can only assist employees with their supplemental insurance. For questions about health insurance coverage, employees should contact our Insurance Team (phone: 504-349-8564, email: openenrollment@jppss.k12.la.us). Our goal is to ensure that Open Enrollment is a clear and manageable process for our employees.

Developing Your COMPASS Professional Growth Plan (PGP)

By now, teachers should have reviewed our school's 90-Day Plan. To ensure successful implementation and achieve the outcomes indicated in our school-wide, teachers will be required to align their PGP's with the top three priorities for our school:

Priority 1 – Student Achievement on EOC

Goal Student EOC performance in all areas (except Geometry).
Increase performance rates to positive results over last year.

Priority 2 – Student Discipline

Goal Consistent implementation of discipline procedures.
Decrease in student referrals and suspension rates.

Priority 3 – Special Populations On-time Graduation Rates

Goal On-time graduation rates for students classified under special populations – ESL, Sp. Education & 504.
Successful completion of coursework and other graduation requirements within 4 years.

By both individual and collaborative means as well as based on data, you are expected to develop nine (9) action steps geared towards student academic achievement- that is, having an academic focus. The language used in your action steps must be cohesive, measureable and ensures alignment with the three domains – Planning and Preparation, Classroom Environment and Instruction. To help guide you through this process, it is recommended that you follow the procedure as explained below:

Step 1: Create an action step for each goal aligned with your individual student achievement goals.

Step 2: On or before your Tuesday, October 27th department meeting, you and members of your department should collaborate to create one (1) action step aligned with the goals of your department. Teachers who teach the same subject are encourage to create an action step aligned with on content area(s) goal(s).

Step 3: On or before your Wednesday, October 28th IS meeting, you and members of your grade-level team should collaborate to create one (1) action step aligned with the grade-level expectations of your IS team.

Step 4: On or before Friday, October 30th each teacher must complete their PGP's in HCIS. The three (3) priority and goals as well as all nine (9) of action steps must be included. Additionally, teachers are required to submit a signed copy of their PGP to their respective COMPASS evaluator.

Grace King Special Education Accommodation Plans – L. M. Pilie’ UPDATED 10/6/15

Thanks so much to all teachers who have reached out for assistance in providing accommodations to SPED students in their classes. If you need any assistance at all, please let me know and we can arrange to sit down and discuss options for accommodating students in your classes. I am in Room 214 or you can email me at LaMinda.Pilie@jppss.k12.la.us

Please keep in mind, it is necessary to give at least a **1 day notice** if you need a test read aloud. This is necessary so that we can arrange for extra help when multiple students from different classes need assistance at the same time. As most of you know, I have classes and sometimes my class is more distracting to a student than your class of students who are testing. Let me know and we can work something out that will allow the student the best opportunity to be successful.

Remember student’s accommodations/IEP are confidential legal documents. Your signature on the JP27 form indicates you have been provided the accommodation plan and will implement the plan in your class. The signed JP27 will be part of the student’s IEP.

You may want to work out a system with the student for accommodations in advance of tests or due dates for projects. I have instructed all students to write “extended time” on the top of any test or answer sheet (except scantrons) before they turn it in so that we can arrange for that later in the day. This method protects their privacy in front of their peers, which is a big concern for these students. Some students decline accommodations out of fear of embarrassment in front of their peers.

Occasionally, a student will refuse their accommodations regardless of methods in place to insure their privacy. Please document this event and send an email to me so the issue can be noted and resolved.

Thanks so much for all you do for our students.

35 Books All Educators of African American and Latino Students Must Read

Quassan Castro

Posted: 01/07/2014 2:25 pm EST Updated: 03/09/2014 5:59 am EDT

Reading a body of work that offers effective insights to educators has proven to greatly assist educators with strengthening their teaching practices. We as educators must continually examine our teaching practices, and seek new ways of reaching our students.

Years of teaching with ineffective practices, as it relates to pedagogy, works to the disadvantage of your students. Additionally, teaching without understanding the population of diverse students before you is a recipe for blatant disaster. As educators, we should always look for ways to reach the bright folks in front of us.

If you're a teacher of African American and Latino children, below is my recommended reading list of outstanding books. Some of the books also provide a very strong understanding of the African American and Latino child as it relates to home life and community, without relying on stereotypes.

Some of the recommended books can be used as a basis to understand and educate all children.

- *Pedagogy of the Oppressed* by Paulo Freire

School-wide Professional Development

School-wide professional development is an ongoing system of providing support and planning resources for teachers. Each month has a targeted focus that relates to the greater school-wide mission and vision. School-wide P.D. also provides an opportunity for inter-departmental collaboration and communication.

Department Meetings

During department meetings we will dispense important information, discuss resources, and strategies that apply content wide.

Content-specific Collaborative Planning

During collaborative planning we will compare data, create common plans including assessments and activities, and continue to develop long-term plans.

Targeted Professional Development

Targeted Professional Development sessions will be designed to respond to needs identified by various stakeholders and instruct teachers on best practices to resolve or address these specific needs. Teachers will be responsible for implementing these best practices within a timeframe discussed at the session.

IS Lateral Planning

IS lateral planning meetings will provide IS teachers with detailed instructions for lesson plan implementation and guidance. Grade level Leaders will gather feedback and data from IS teachers who have implemented previous lessons. Lesson plans and materials will be provided to assist teachers in student growth in terms of appropriate level standardized tests.

ESL Department Meeting Focus: ESL Department meetings will continue to focus on ELL Accommodations. This will make both the ESL and mainstream teacher more effective by providing the necessary strategies to support students. Students will achieve academic success through the implementation of individualized accommodations outlined on their ACE form. Deliverables: ESL Teachers will provide the ACE form for mainstream teacher signatures. Mainstream teachers will complete signatures and consult with Lead ESL Teacher for their student for support. ESL Department Chair will submit agenda 24 hours in advance to the Supervising Administrator and the signature page post meeting.

ESL Collaborative Meetings: ESL Teachers will meet with their course team (ESL I, II, Content Areas – Geography, ELA, Reading) to develop course outline and materials. Deliverables: Submit Lesson Plans according to calendar cycle.

ELL / ESL Department Grade Level Meeting

ESL Teachers will continue to focus on providing students with the accommodations they require, as per their ACE Accommodations. Teachers will discuss how to implement these accommodations in their class rooms which will provide students with the support they need to prepare themselves for the ELDA exams. Students will be advancing their English proficiency, in the areas that they are weakest in, through practice in the classroom.

Deliverables: Provide an outline of the materials being used to meet ACE accommodations for each English Proficiency Level, as it pertains to ELDA test preparation, which will allow for collaborative planning between ESL teachers.

Special Education Department Meeting – Special Education Teachers will focus on providing students with accommodations as per their IEP, IAP and 504. Teachers work collaboratively with regular education teachers to modifying teacher lesson plans and assessments. They also support struggling students who have physical or mental disabilities by leveling the playing field for academic success in high school.
