Professional Learning Communities

School-wide Professional Development

School-wide professional development is an ongoing system of providing support and planning resources for teachers. Each month has a targeted focus that relates to the greater school-wide mission and vision. School-wide P.D. also provides an opportunity for inter-departmental collaboration and communication.

Department Meetings

During department meetings we will dispense important information, discuss resources, and strategies that apply content wide.

Content-specific Collaborative Planning

During collaborative planning we will compare data, create common plans including assessments and activities, and continue to develop long-term plans.

Targeted Professional Development

Targeted Professional Development sessions will be designed to respond to needs identified by various stakeholders and instruct teachers on best practices to resolve or address these specific needs. Teachers will be responsible for implementing these best practices within a timeframe discussed at the session.

IS Lateral Planning

IS lateral planning meetings will provide IS teachers with detailed instructions for lesson plan implementation and guidance. Grade level Leaders will gather feedback and data from IS teachers who have implemented previous lessons. Lesson plans and materials will be provided to assist teachers in student growth in terms of appropriate level standardized tests.

ESL Department Meeting Focus: ESL Department meetings will continue to focus on ELL Accommodations. This will make both the ESL and mainstream teacher more effective by providing the necessary strategies to support students. Students will achieve academic success through the implementation of individualized accommodations outlined on their ACE form. **Deliverables:** ESL Teachers will provide the ACE form for mainstream teacher signatures. Mainstream teachers will complete signatures and consult with Lead ESL

Teacher for their student for support. ESL Department Chair will submit agenda 24 hours in advance to the Supervising Administrator and the signature page post meeting.

ESL Collaborative Meetings: ESL Teachers will meet with their course team (ESL I, II, Content Areas – Geography, ELA, Reading) to develop course outline and materials. Deliverables: Submit Lesson Plans according to calendar cycle.

ELL / ESL Department Grade Level Meeting

ESL Teachers will continue to focus on providing students with the accommodations they require, as per their ACE Accommodations. Teachers will discuss how to implement these accommodations in their class rooms which will provide students with the support they need to prepare themselves for the ELDA exams. Students will be advancing their English proficiency, in the areas that they are weakest in, through practice in the classroom.

Deliverables: Provide an outline of the materials being used to meet ACE accommodations for each English Proficiency Level, as it pertains to ELDA test preparation, which will allow for collaborative planning between ESL teachers.

Special Education Department Meeting – Special Education Teachers will focus on providing students with accommodations as per their IEP, IAP and 504. Teachers work collaboratively with regular education teachers to modifying teacher lesson plans and assessments. They also support struggling students who have physical or mental disabilities by leveling the playing field for academic success in high school.
